Education

Muffakham Jah College of Engineering and Technology, Hyderabad, India *Aug 2024 – Jun 2027*
B.E in Artificial Intelligence and Data Science

- **Coursework:** Data Structures, Algorithms, Operating Systems, Agile Technologies, Database Management Systems, Object-Oriented Programming, Machine Learning, Artificial Intelligence, Probability and Statistics.

Quli Qutub Shah Government Polytechnic, Hyderabad, India *Jun 2020 – Jun 2023*
Diploma in Computer Engineering

- **Coursework:** Computer Programming, Object-Oriented Programming, Data Structures, Algorithms, Relational Database Management Systems, Software Development

Experience

Software Engineer Intern *Hyd, India*
IndusTech *Aug 2022 – Nov 2022*

- Developed and maintained responsive web applications using modern web technologies, improving user experience and functionality.
- Built and tested Android applications using Android Studio, implementing core features and debugging issues to ensure smooth performance. in cybersecurity tasks, including vulnerability assessment, basic penetration testing, and implementing security best practices to enhance system safety.
- Gained practical experience in production-ready application development and Agile methodologies.

Projects

- **Recipe App in Android Studio**
Developed a Recipe App that lets users search for recipes and view step-by-step instructions, providing a simple and convenient way to explore and follow recipes.
- **FortiFi : Asset Recovery System for banks**
Developed an Asset Recovery System for banks to streamline the tracking and management of non-performing assets (NPAs). The system enables efficient borrower monitoring, recovery case management, and centralized tracking of asset details.
- **AI-powered research paper summarizer**
Developed an AI-powered research paper summarizer that automatically extracts key insights from academic papers and generates concise summaries. The system uses Natural Language Processing (NLP) techniques to identify important sections and reduce lengthy papers into readable summaries.

Skills

Languages: C/C++, Java, Python, JavaScript

Tools & Technologies: Unix/Linux, Git, SQL

Web Development: HTML, CSS, JavaScript, Flask, Django, FastAPI, Express.

Achievements

Winner – Datanyx’25 Hackathon (FinTech Domain): Developed an innovative fintech solution as part of a team and secured 1st place among competing teams.

2nd Place – Powerlifting (Inter-College Competition), Osmania University: Achieved runner-up position demonstrating strength, discipline, and competitive performance.

3rd Place – Wrestling (Inter-College Competition), Osmania University: Secured third place representing the college in university-level wrestling competition.
